## **This election season, be a voice for kids!**

Kids can't vote and they don't give money to political candidates. So it is up to us to make sure that children have a voice on the campaign trail.

Take this pocket guide with you wherever you go so that when you run into a candidate you have a question about vital kids' issues ready to go!

### **Question to Ask Candidates**

- 1.** What are your plans to invest in high-quality early childhood education to make sure all kids have a strong start in life?
- 2.** Millions of kids in our country—especially those living in poverty—miss out on high-quality child care and preschool. What steps would you take to help more children have access to early learning to set them up for success?
- 3.** Every day, 15,000 children under age five die of preventable causes around the world. What programs would you support to improve the health of moms and kids around the world?
